

Professional Services. Catalogue.

Vendor Solutions – Non-Cloud

Cyber Security.

01

Firewall, endpoint, threat intelligence & zero trust solutions.

CORE CAPABILITIES

- Next-Generation Firewalls & Network Security
- Cloud Security & SaaS Protection
- Endpoint Protection & EDR
- Threat Intelligence & Security Analytics
- Secure Access & Zero Trust Solutions
- Automation & Orchestration

KEY MODULES / SOLUTIONS

- Firewall & Network Security: PA-Series NGFW, Panorama Management, Container Security
- Cloud Security: Prisma Cloud, Prisma SaaS
- Endpoint Protection: Cortex XDR, Cortex XSOAR
- Threat Intelligence & Analytics: AutoFocus, Threat Prevention, WildFire
- Secure Access: Prisma Access, GlobalProtect, Zero Trust Network Access
- Automation & Orchestration: Security Policy Automation, SOC Automation, Integration with SIEM/SOAR
- Cortex Xpanse (Attack Surface Management)
- Cortex XSIAM (AI-driven SOC platform)
- IoT Security (Zingbox)
- SaaS Security / Aperture
- Unit 42 Threat Intelligence & IR Services

CORE CAPABILITIES

- Firewall & Network Security
- SIEM & SOAR Integration
- Web Application Firewall (WAF)
- Centralized Management (FortiManager)
- Switches & Network Devices (FortiSwitch)
- Analytics & Logging (FortiAnalyzer)
- Advanced Threat Protection (FortiAT)
- SD-WAN & WAN Optimization
- Container Security & Cloud Security

KEY MODULES / SOLUTIONS

- FortiGate Firewall
- FortiManager
- FortiAnalyzer
- FortiSwitch
- FortiWeb
- FortiEDR / FortiXDR (Endpoint Detection & Response)
- FortiClient (ZTNA / VPN endpoint agent)
- FortiNAC (Network Access Control)
- FortiAuthenticator & FortiToken (Identity & MFA)
- FortiMail (Email Security)
- FortiAP (Secure Wi-Fi)
- FortiSandbox
- FortiSIEM

CORE CAPABILITIES

- Network Security & Firewall
- Threat Prevention & Antivirus
- Cloud Security (Public, Private, Hybrid)
- VPN & Remote Access
- Security Management & Policy Enforcement
- Compliance & Audit Reporting

KEY MODULES / SOLUTIONS

- Check Point Firewall
- Threat Prevention Modules
- CloudGuard (Cloud Security)
- Harmony Endpoint / Email / Browse / Mobile
- Quantum Smart-1 Management Appliances
- Infinity SOC (Threat Hunting & Analytics)
- Horizon XDR / MDR
- Quantum IoT Protect
- VPN Solutions
- Security Management Console
- Compliance & Logging Tools

CORE CAPABILITIES

- Endpoint Detection & Response (EDR/XDR)
- Next-Generation Antivirus (NGAV)
- Threat Intelligence & Threat Hunting
- Identity Threat Protection
- Cloud Workload & Container Security
- Managed Detection & Response

KEY MODULES / SOLUTIONS

- Falcon Insight XDR
- Falcon Prevent (NGAV)
- Falcon Identity Protection
- Falcon Cloud Security
- Falcon LogScale (SIEM)
- Falcon Complete (MDR)

CORE CAPABILITIES

- Zero Trust Network Access (ZTNA)
- Secure Web Gateway (SWG) & SASE
- Cloud Access Security Broker (CASB)
- Data Loss Prevention (DLP)
- Digital Experience Monitoring (DEM)
- Browser Isolation & Sandboxing

KEY MODULES / SOLUTIONS

- Zscaler Internet Access (ZIA)
- Zscaler Private Access (ZPA)
- Zscaler Digital Experience (ZDX)
- Zscaler Posture Control (CNAPP)
- Zscaler Deception

CORE CAPABILITIES

- SIEM & Security Analytics
- SOAR & Incident Response Automation
- Observability & IT Ops Monitoring
- Log Management & Machine Data Analytics
- User & Entity Behavior Analytics

KEY MODULES / SOLUTIONS

- Splunk Enterprise Security (ES)
- Splunk SOAR (Phantom)
- Splunk Observability Cloud
- Splunk IT Service Intelligence (ITSI)
- Splunk UBA

proofpoint®

CORE CAPABILITIES

- Email Security & Anti-Phishing
- Insider Threat Management
- Information Protection & DLP
- Security Awareness Training
- Cloud App Security (CASB)

KEY MODULES / SOLUTIONS

- Proofpoint Email Protection
- Targeted Attack Protection (TAP)
- Insider Threat Management (ITM)
- Information Protection
- Security Awareness

CORE CAPABILITIES

- Vulnerability Management & Assessment
- Cyber Exposure Management
- OT & ICS Security
- Cloud Security Posture Management
- Web Application Scanning

KEY MODULES / SOLUTIONS

- Tenable.io / Vulnerability Management
- Tenable.sc (SecurityCenter)
- Tenable.ot (OT Security)
- Tenable Cloud Security
- Nessus Professional / Expert

CORE CAPABILITIES

- Data Loss Prevention (DLP)
- Network Security & Threat Protection
- Insider Threat Detection
- Cloud Security & SaaS Protection
- Security Analytics & Policy Enforcement

KEY MODULES / SOLUTIONS

- Forcepoint DLP
- Forcepoint NGFW
- Forcepoint Insider Threat
- Forcepoint Cloud Security
- Forcepoint ONE (Unified SSE Platform)
- Forcepoint Web Security
- Forcepoint Email Security
- Forcepoint CASB
- Forcepoint ZTNA (Private Access)
- Forcepoint Remote Browser Isolation (RBI)

FORESCOUT

CORE CAPABILITIES

- Network Access Control (NAC)
- Endpoint Visibility & Threat Detection
- Automated Remediation & Compliance
- IoT & OT Device Security
- SIEM/SOAR Integration

KEY MODULES / SOLUTIONS

- ForeScout CounterACT
- ForeScout eyeInspect
- ForeScout Extended Modules
- ForeScout 4D Platform
- ForeScout XDR
- ForeScout Continuum (Asset Intelligence)
- ForeScout Frontline (Managed Threat Detection)
- ForeScout Risk & Exposure Management

CORE CAPABILITIES

- Endpoint Security & Anti-Malware
- Network Security & IPS
- Cloud Security & Workload Protection
- Email Security & Threat Intelligence
- Data Loss Prevention (DLP)
- SIEM Integration

KEY MODULES / SOLUTIONS

- Trend Micro Apex One
- Trend Micro Deep Security
- Trend Micro Cloud One
- Trend Micro Email Security
- Trend Vision One (Unified XDR Platform)
- Trend Micro Worry-Free (SMB Endpoint)
- Trend Micro TippingPoint (NGIPS)
- Trend Micro ServerProtect
- Trend Micro Attack Surface Risk Management (ASRM)

CORE CAPABILITIES

- SSL & Network Access Control (NAC) – Secure authentication and network access enforcement
- Security & Patch Management – Endpoint security, vulnerability remediation, and OS/application patching
- Unified Endpoint Management (UEM) – Manage devices across Windows, macOS, Linux, and mobile platforms

KEY MODULES / SOLUTIONS

- Ivanti Neurons (AIOps)
- Ivanti Connect Secure (Pulse VPN)
- Ivanti Endpoint Manager (EPM)
- Ivanti Service Manager (ITSM)

Network & Infrastructure.

Switching, routing, SD-WAN & network management solutions.

02

CORE CAPABILITIES

- Enterprise Networking & Switching
- SD-WAN & WAN Edge Solutions
- Observability & Network Telemetry
- Network Automation & Orchestration (Network One, Automation Tools)
- Enterprise Security Solutions (Firewalls, VPN, NAC)
- Cloud & Data Center Networking (ACI, Nexus, NDFC)
- Collaboration Tools & Unified Communication

KEY MODULES / SOLUTIONS

- Cisco Catalyst & Nexus Switches
- Cisco SD-WAN
- Cisco Observability & AppDynamics
- Cisco Meraki (Cloud-Managed Networking)
- Cisco Secure Endpoint (AMP for Endpoints)
- Cisco Duo Security (MFA / Zero Trust)
- Cisco ThousandEyes (Internet & WAN visibility)
- Cisco Webex (Collaboration)
- Cisco Talos Threat Intelligence
- Cisco XDR
- Cisco Network Automation Tools (Network One, DNA Center)
- Cisco Firepower & Umbrella Security
- Cisco ISE (Identity Services Engine)

CORE CAPABILITIES

- Enterprise & Service Provider Networking
- Security & Firewall Solutions
- SD-WAN & WAN Automation
- Observability & Network Analytics
- Data Center & Cloud Networking
- Telco Network Automation

KEY MODULES / SOLUTIONS

- Routing & Switching: MX Series, QFX Series, EX Series
- Security & Firewall: SRX Series, Advanced Threat Prevention
- SD-WAN: Session Smart Router, Secure SD-WAN solutions
- SDN & Observability Analytics: Apstra, Juniper Health, Mist AI, Paragon
- Network Automation: Junos Automation, Contrail, Python APIs
- Wireless & Access: Mist Wi-Fi, Access Points, Wireless LAN solutions
- Data Center & Cloud: Data Center fabrics, EVPN, QFabric
- Mist AI for Wired & Wireless
- Marvis Virtual Network Assistant (AIOps)
- AppFormix (Telemetry & Analytics)
- Juniper Security Director Cloud
- Juniper Cloud-Native Router & cRPD

ARISTA

CORE CAPABILITIES

- High-Performance Data Center Networking
- Network Automation & Observability
- Cloud Networking Solutions
- MPLS & SDN
- Network Telemetry & Analytics
- SD-WAN : Velocloud

KEY MODULES / SOLUTIONS

- Arista EOS (Extensible Operating System)
- CloudVision Network Management
- Arista Spine-Leaf Switching
- Arista NDR (Awake Security)
- DANZ Monitoring Fabric (DMF)
- Arista CloudEOS (Multi-Cloud Networking)
- Arista Wi-Fi (Cognitive Wi-Fi / Mojo)
- Arista Macro-Segmentation Service (MSS)
- Arista Etherlink AI Networking Platforms

HPE aruba networking

CORE CAPABILITIES

- Wireless LAN & Enterprise Wi-Fi
- Network Access Control (ClearPass)
- SD-WAN & WAN Edge
- Network Security & Policy Management
- Edge-to-Cloud Networking
- Analytics & Observability (Aruba Central)

KEY MODULES / SOLUTIONS

- ArubaOS
- ClearPass
- Aruba Central
- Aruba SD-WAN
- Aruba EdgeConnect (Silver Peak SD-WAN)
- Aruba User Experience Insight (UXI)
- Aruba IntroSpect (UEBA)
- Aruba CX Switching Series
- Aruba SSE (Secure Service Edge / Axis Security)

CORE CAPABILITIES

- Enterprise Networking & Switching
- Wireless LAN / Wi-Fi Management
- Network Security & Policy Management
- Cloud Networking Solutions

KEY MODULES / SOLUTIONS

- ExtremeSwitching (Core, Access, Edge)
- ExtremeWireless (Wi-Fi / Access Points)
- ExtremeCloud IQ (Cloud Network Management)
- ExtremeAnalytics (Network Insights & Monitoring)
- Extreme Fabric Connect (SPB-based Fabric)
- ExtremeControl (NAC)
- ExtremeGuest Essentials (Guest Wi-Fi)
- ExtremeAirDefense (Wireless IPS)
- ExtremeLocation (Indoor Location Analytics)
- Extreme Universal Hardware (Universal Switches/APs)

CORE CAPABILITIES

- Application Delivery Controllers & Load Balancing
- Web Application & API Protection
- DDoS Mitigation & Bot Defense
- Access Management & Identity Federation
- Multi-Cloud Application Services

KEY MODULES / SOLUTIONS

- F5 BIG-IP (LTM, GTM/DNS, ASM, APM)
- F5 Advanced WAF
- F5 Distributed Cloud Services (XC)
- F5 NGINX (Plus, App Protect)
- F5 BIG-IQ Centralized Management

CORE CAPABILITIES

- DDI (DNS, DHCP, IPAM) Management
- DNS Security & Threat Intelligence
- Network Automation & Orchestration
- Cloud Network Automation
- SaaS-managed DDI (BloxOne)

KEY MODULES / SOLUTIONS

- Infoblox NIOS (Grid Manager)
- BloxOne DDI / Threat Defense
- Infoblox NetMRI (Network Automation)
- Infoblox Reporting & Analytics

CORE CAPABILITIES

- Network Performance Monitoring (NPM)
- Application Performance Monitoring (APM)
- DDoS Protection (Arbor)
- Service Assurance for Carriers
- Deep Packet Inspection & Smart Data

KEY MODULES / SOLUTIONS

- nGeniusONE Service Assurance
- Arbor Edge Defense / Arbor Sightline
- InfiniStreamNG Appliances
- Omnis Cyber Intelligence (NDR)
- vSTREAM Virtual Appliance

CORE CAPABILITIES

- Network Performance & Configuration
- Server & Application Monitoring
- Database Performance Monitoring
- IT Service Management (ITSM)
- Observability & Hybrid Cloud Monitoring

KEY MODULES / SOLUTIONS

- SolarWinds NPM (Network Performance)
- SolarWinds SAM (Server & App Monitor)
- SolarWinds NCM (Network Config Manager)
- SolarWinds DPA (Database Performance)
- Hybrid Cloud Observability

CORE CAPABILITIES

- Enterprise Networking (Switches, Routers)
- Cloud & Data Center Solutions
- Security Solutions (Firewalls, VPN, NAC)
- AI & Big Data Solutions
- Network Automation & Observability

KEY MODULES / SOLUTIONS

- CloudEngine Switches / USG Firewalls
- FusionSphere Cloud / iMaster NCE
- OceanStor / FusionServer
- eLTE (Private Wireless) / AntiDDoS
- HiSec Insight / Atlas AI Compute

Data Center, Storage.

03

Servers, HCI, backup, virtualization & cloud platforms.

Hewlett Packard Enterprise

CORE CAPABILITIES

- Enterprise Servers & Storage
- Hyper-Converged Infrastructure (HCI)
- Networking & Aruba Solutions
- Hybrid Cloud & Edge Solutions
- IT Operations Management & Automation
- Data Protection & Backup Solutions

KEY MODULES / SOLUTIONS

- ProLiant / Synergy / Apollo / Superdome
- Nimble / 3PAR / Alletra / StoreOnce / MSA
- HPE SimpliVity (HCI)
- HPE GreenLake / Ezmeral / Cray
- HPE Zerto / Morpheus / Private Cloud AI
- HPE OneView / InfoSight

CORE CAPABILITIES

- Servers & Storage Solutions
- Hyperconverged Infrastructure (VxRail)
- Data Protection & Backup
- Cloud & Virtualization Solutions
- Networking & Converged Infrastructure
- End-User Computing

KEY MODULES / SOLUTIONS

- Dell PowerEdge Servers
- Dell VxRail / PowerFlex / PowerScale
- Dell EMC Unity, Isilon, ECS Storage
- Dell Networking Switches & Fabrics
- Dell Data Protection Suite
- Dell APEX (as-a-Service Platform)
- Dell PowerStore (Modern Block & File Storage)
- Dell PowerMax (Mission-Critical Storage)
- Dell PowerProtect Data Domain / DD Series
- Dell SmartFabric Director & Services
- Dell CloudIQ (AIOps Observability)

CORE CAPABILITIES

- Hyperconverged Infrastructure (HCI)
- Enterprise Cloud Solutions
- Virtualization Management
- Storage & Data Management
- Automation & Orchestration

KEY MODULES / SOLUTIONS

- Nutanix AOS (Acropolis)
- Nutanix Prism
- Nutanix AHV Hypervisor
- Nutanix on Cloud Services (AWS, Azure & GCP)
- NKS (Nutanix Kubernetes Service)
- Nutanix Files (Unified File Storage)
- Nutanix Objects (S3 Object Storage)
- Nutanix Volumes (Block Storage)
- Nutanix Database Service (NDB / Era)
- Nutanix Flow (Microsegmentation & Security)
- Nutanix Mine (Integrated Backup)
- Nutanix Frame (DaaS) / Calm / Beam

CORE CAPABILITIES

- Virtualization & Hypervisors
- Cloud & Hybrid Cloud Management
- Software-Defined Networking (NSX)
- End-User Computing & VDI
- Automation & Orchestration

KEY MODULES / SOLUTIONS

- VMware vSphere
- VMware NSX
- VMware Horizon (VDI)
- VMware Cloud Foundation
- VMware vRealize Suite
- VMware on AWS & Azure
- VMware Tanzu (Kubernetes & App Platform)
- VMware Carbon Black (Endpoint Security / EDR)
- VMware Workspace ONE (UEM / Digital Workspace)
- VMware SD-WAN (VeloCloud) & SASE
- VMware Avi Load Balancer (NSX ALB)
- VMware Aria Suite (formerly vRealize)

CORE CAPABILITIES

- All-Flash Block, File & Object Storage
- Storage-as-a-Service (Evergreen//One)
- AI & Analytics-Ready Storage (AIRI)
- Ransomware Protection (SafeMode)
- Container & Kubernetes Data Services (Portworx)

KEY MODULES / SOLUTIONS

- FlashArray //X, //C, //XL
- FlashBlade //S, //E
- Pure1 (AIOps Management)
- Portworx (Kubernetes Data Platform)
- Evergreen//One STaaS

CORE CAPABILITIES

- Enterprise Backup & Recovery
- Virtual, Physical & Cloud Workload Protection
- Ransomware Recovery & Immutable Backups
- Disaster Recovery & Replication
- Microsoft 365 & SaaS Backup

KEY MODULES / SOLUTIONS

- Veeam Data Platform (Backup & Replication)
- Veeam ONE (Monitoring & Analytics)
- Veeam Backup for Microsoft 365
- Veeam Recovery Orchestrator
- Veeam Kasten K10 (Kubernetes Backup)

COMMVAULT

CORE CAPABILITIES

- Data Protection & Backup
- Disaster Recovery & Replication
- Cyber Resilience & Ransomware Protection
- Data Management & Archiving
- Hybrid & Multi-Cloud Data Mobility

KEY MODULES / SOLUTIONS

- Commvault Cloud (Backup & Recovery)
- Commvault HyperScale X
- Metallic DMaaS (SaaS Backup)
- Commvault Threatwise (Cyber Deception)
- Commvault Disaster Recovery

COHESITY

CORE CAPABILITIES

- Data Protection & Backup Consolidation
- Ransomware Detection & Recovery
- File & Object Services (NAS)
- Data Security & Governance
- DR & Hybrid Cloud Mobility

KEY MODULES / SOLUTIONS

- Cohesity DataProtect
- Cohesity SmartFiles
- Cohesity DataHawk (Threat Detection)
- Cohesity FortKnox (Cyber Vaulting)
- Cohesity SiteContinuity (DR)

CORE CAPABILITIES

- Virtual Desktop Infrastructure (VDI)
- Application Virtualization & Delivery
- Networking & SD-WAN
- Secure Remote Access
- Workspace Management

KEY MODULES / SOLUTIONS

- Citrix Virtual Apps & Desktops
- Citrix ADC (NetScaler) / SD-WAN
- Citrix Workspace / Endpoint Management
- Citrix Secure Private Access (ZTNA)
- Citrix DaaS / Analytics for Security & Performance

AI, HPC & Emerging Tech.

04

GPU computing, containers, Linux & digital workspace.

NVIDIA AI Infrastructure Services

ARCHITECTURE & DESIGN

- Design of AI-ready infrastructure using NVIDIA DGX systems, DGX SuperPODs, and NVIDIA-certified servers.
- Integration of GPU-accelerated platforms with VMware vSphere, Red Hat OpenShift, and Kubernetes.

IMPLEMENTATION & DEPLOYMENT

- DGX/HGX cluster setup and configuration.
- Deployment of NVIDIA AI Enterprise Suite.
- Integration of NVIDIA Triton Inference Server and DeepStream SDK.

AI/ML PIPELINE ENABLEMENT

- Data ingestion, labeling, and model training pipelines.
- Model deployment and inference optimization using TensorRT.
- MLOps implementation using tools such as Kubeflow and MLFlow.

Networking and Data Center Acceleration

HIGH-PERFORMANCE NETWORKING WITH NVIDIA NETWORKING (MELLANOX)

- Design and deployment of 100G/200G/400G InfiniBand and Ethernet fabrics.
- Implementation of NVIDIA UFM (Unified Fabric Manager) and NetQ for fabric management and telemetry.
- RDMA over Converged Ethernet (RoCE) design and tuning.

DPU ACCELERATION WITH NVIDIA BLUEFIELD

- Integration and offloading of infrastructure services using BlueField DPUs.
- Implementation of software-defined networking, storage, and security acceleration.
- DOCA (Data Center Infrastructure-on-a-Chip Architecture) based development and automation.

AI Applications and Integration

EDGE AI AND VISION AI

- Deployment of NVIDIA Jetson-based edge AI solutions.
- Integration of video analytics pipelines with DeepStream SDK and TAO Toolkit.
- End-to-end smart city, smart retail, and industrial automation solutions.

ENTERPRISE AI INTEGRATION

- Integration of NVIDIA AI with SAP, Oracle, and other enterprise applications.
- Custom plugin development and optimization using CUDA, cuDNN, and TensorRT.

Red Hat

Red Hat Services Portfolio

RED HAT ENTERPRISE LINUX (RHEL)

- Infrastructure readiness & OS standardization
- Secure builds, patching, compliance, subscription mgmt
- Performance tuning & lifecycle operations

RED HAT VIRTUALIZATION (RHV/KVM)

- Virtualization assessment & migration from VMware/Hyper-V
- RHV/KVM deployment with storage & networking
- Optimization, backup, and DR automation

OPENSTACK

- Private cloud strategy, architecture, and capacity planning
- Multi-tenant deployment with storage & networking integration
- Operations support: monitoring, upgrades, scaling

OPENSIFT (KUBERNETES PLATFORM)

- Container adoption roadmap & app modernization
- Cluster deployment (BareMetal, VM, or cloud)
- CI/CD pipelines, service mesh, security, policy mgmt.
- Patch, upgrade, governance

Automation & AI

OPENSIFT AI

- AI/ML readiness & GPU sizing
- JupyterHub, ML pipelines, and NVIDIA AI Enterprise integration
- MLOps enablement, GPU utilization, workload scaling

ANSIBLE AUTOMATION PLATFORM

- Automation assessment & playbook strategy
- Controller/Tower deployment and workflow integration
- Enterprise automation CoE & optimization
- Training for Sysadmins, DevOps, and advanced playbook dev

CORE CAPABILITIES

- Enterprise Linux Solutions
- Open Source Infrastructure & Cloud
- Kubernetes / Container Management
- Storage & High Availability Solutions

KEY MODULES / SOLUTIONS

- SUSE Linux Enterprise Server (SLES)
- SUSE Rancher (Kubernetes Management)
- SUSE Manager (Infrastructure & Patch Management)
- SUSE Storage (Ceph-based)
- SUSE OpenStack Cloud
- SUSE NeuVector (Container Security)
- SUSE Edge
- SUSE Liberty Linux
