

Course SC-5003: Implement information protection and data loss prevention by using Microsoft Purview

Level: Intermediate

Length: 1 Day

Course Overview

About this course

Gain the skills to use Microsoft Purview to improve your data security in Microsoft 365. In this training, you learn how to create sensitive information types, create sensitivity labels, and use auto-labeling policies based on these labels. You also learn how to set up DLP (Data Loss Prevention) policies to safeguard your organization's data.

Prerequisites

- Basic understanding of Microsoft 365 products and services
- Familiarity with Microsoft Purview
- An understanding of data security concepts

Course Details
